September 2021 – Present

Expected Grade: 2.1

### **Leaving Certificate**

Lanesborough Community College, Lanesborough, County Longford  
2021

---

## SKILLS

- Strong communication
- Customer retention
- Problem solving
- HTML and XML
- SQL
- Java
- JavaScript
- Agile methodology
- Python
- CSS

I have acquired knowledge in object-oriented software development languages in Java, JavaScript, Python, HTML, and PHP. I have applied this knowledge on many Integrated Development Environments (IDEs) such as Eclipse, Visual Studio Code, PyCharm, and NetBeans.

I have created many projects in Mobile Application Development, in my third year during my work placement at Oliver Carty & Family, I was tasked with creating a mobile application that tracked the inventory of each product in every store across the country, this included a login system, tracking the location, the product and how much of the product is in that particular store.

I am currently developing an application for my final year project, the application is a product management application that is targeted towards start-ups and small businesses. The application uses SQLite as the main database and Firebase for a backup database which also allows for synchronization across different devices.

In Web Development, I have built both static and dynamic websites. I created a static webpage for my local GAA club, which displays club information and pictures about the club. Additionally, I developed a dynamic webpage where users can input measurements to calculate surface area.

---

## **EXPERIENCE**

### **Bartender**

Clarke's Bar, Lanesborough, County Longford

*July 2022 - Present*

- Thoroughly cleaned bar areas, delivering positive first impressions to guests and maintaining impeccable hygiene standards.
